Title	**HLTAYV002: Make ayurvedic lifestyle assessment**
Purpose	This unit describes the skills and knowledge required to assess client needs in the context of an Ayurvedic lifestyle assessment framework. It requires the ability to gather client information and to make an Ayurvedic health assessment.
Assessment	Summative Assessment: Clinical Case #3

ASSESSMENT TASK

1. Using the attached Case Taking Form, carry out a physical health assessment on a client to identify their current health and any signs and symptoms that indicate a variation from their normal health status. **(NB: You must obtain client consent before commencing);**
2. Record this information using the attached Case Reporting Form;
3. Upload the following documents to the e-learning site:
   - Assessment Cover Page
   - Completed Case Reporting Template
   - Completed Client Consent Form

NB: You don't need to give any advice. We only need the diagnosis.

NB: Assessments submitted without the completed Client Consent Form will be marked " Not Achieved."

NB: You have to submit the Case Taking Form, Prakruti and Guna tests. They are required for assessment.

NB: From a total of x5 clinical cases, a maximum of only x1 family member is allowed as a client.

NB: This form is only a template. Use extra pages if you need more space to record your information.

Assessment Marking

There are two grades of marking:

"Achieved" – you have met the requirements of the unit standard

"Not Achieved" – you have not yet met the requirements of the unit standard.

Remember you must achieve every section of this assessment to successfully complete this unit standard.

Students who receive a "Not Achieved" will have 2 opportunities for re-submission.

Clinical Case Taking Form

Practitioner's Name		Date	
Client's Full Name		Date of Birth	
Address
